Recording policy

You may record things for your own private use only, provided you can do so without disrupting concerts, circles or anything else. However a) you may not sell a recording for profit, b) you must ask permission if you want to pass any recording on/use it for anything else, and c) anyone being recorded is perfectly within their rights to ask you to turn your recording device off.

Photograph policy

As the recording policy really, plus we are aware that some of our members are hypersensitive to flash photography. Most modern digital cameras can be set up not to need flash at the light levels we see at filk cons, so please turn it off. If you don't know how, ask around - someone'll be able to figure it out for you.

Weapons policy

Just don't. Please. If you bring something that looks like a weapon as a toy or part of a hall costume, the committee reserve the right to test it on you.

P.S. Nerf guns are weapons. [Chairman's note: this means you, James W!]
